

All Corporate Users must do this in order to use SSO:

Navigate to www.vwhub.com and click on the Register button next to the New Corporate User Registration

The screenshot shows the vwhub.com website interface. At the top, there is a header with the vwhub.com logo and a 'Français' language selector. Below the header, the 'Welcome to vwhub.com' message is displayed. The main content area is divided into two sections: 'Sign In' and 'New Users Register'.

The 'Sign In' section contains a 'User ID' input field, a 'Password' input field, a 'Forgot Password' link, and a 'Submit' button.

The 'New Users Register' section contains the text 'New users must register to create their vwhub.com UserID and password.' Below this, there are two registration options:

- New dealer user registration :
- New corporate user registration :

A red arrow points to the 'Register' button for 'New corporate user registration'.

At the bottom of the page, there is a section for 'VW customers and enthusiasts:' with links to www.vw.com and www.vw.ca. Below this, there is a link to 'Learn more about vwhub.com' and a link to 'vwhub.com Overview'.

Enter your network credentials then you are all set. This will register you PKI card to your LDAP record which enables the SSO with the PKI card.

Employee Self-Registration For Unified Dealer Extranet (UDE)

The registration process for dealership personnel does not work for non-dealership employees. Instead, use this VINNIE page to add accessaudi.com vwhub.com access rights to your network profile.

User ID (Your VWOA or VWC network user name)

Password (Your VWOA or VWC network password)
